

Summer Internship Program

Location: Office & Job Site(s)

Duration: 10-12 weeks (June – August)

Type: Paid Internship

Application Deadline: First Quarter Annually

Program Overview:

Our Summer Internship Program is designed to give students real-world experience in the construction industry. Over the course of the internship, participants will work alongside seasoned professionals in a fast-paced, collaborative environment. Interns will gain exposure to various phases of construction projects – from preconstruction planning to on-site execution and project closeout.

Key Responsibilities:

- Assist project managers, engineers, and site supervisors with daily operations
- Participate in project planning, budgeting, scheduling, and coordination
- Conduct field visits and inspections with safety and quality control teams
- Support procurement, subcontractor coordination, and document control
- Prepare reports, presentations, and job site documentation
- Learn and apply construction management software tools (e.g., Procore, Bluebeam)

Who Should Apply:

We're looking for motivated students who are passionate about construction and eager to learn.

Qualifications:

- Currently pursuing a degree in Construction Management, Civil Engineering, Architecture, or related field
- Strong communication, teamwork, and organizational skills
- Basic understanding of construction drawings and terminology
- Willingness to work both in office and on-site environments
- Proficiency in Microsoft Office; experience with construction software a plus

What You'll Gain:

- Hands-on experience on active construction projects
- One-on-one mentorship with industry professionals
- Networking opportunities with company leaders and partners
- A clear understanding of career paths in the construction industry
- Competitive pay and potential pathway to full-time employment

How to Apply:

Submit your resume and cover letter to Colleen Ladd at cladd@teampdenovo.com.
